**Florida Department of Health in Marion County Launches New Website**  
*Redesigned Web Presence Improves Access to Public Health Information*

OCALA—The Florida Department of Health in Marion County has launched an updated, redesigned website. The website offers streamlined access to the most frequently sought information and provides valuable resources for Marion County residents.

“The layout of the new website will help us promote and protect health in Marion County,” said Mike Napier, interim administrator for the Florida Department of Health in Marion County. “It is easy to view on mobile devices, and we can quickly introduce alerts, important news and notifications to help keep the community informed.”

New enhancements include easy-to-find contact information, a user-friendly upcoming events feature, newsroom articles, and easy access to public health information.

The redesigned site is part of a Florida Department of Health transformation of all county health department websites. The health department website for Marion County integrates with the Florida Department of Health website, giving residents easy access to important public health information at the local and state level.

You can find the new website at [Marion.FloridaHealth.gov](http://Marion.FloridaHealth.gov).

The Department works to protect, promote and improve the health of all people in Florida through integrated state, county and community efforts.
