

Breastfeeding Pump Program

The Breast Pump Program is available to qualified WIC clients who are breastfeeding and need a pump. WIC nutrition staff determine eligibility for a pump on a case-by-case basis.

Clients provided a manual or single-user pump may keep it. A multi-user pump is for loan only and must be returned to WIC according to the borrower's contract. Clients are taught how to use and clean whichever pump they receive.

Those who are not WIC clients may: contact their insurance company to receive a pump; contact our Healthy Start office to see if they qualify for that program; or contact a local medical supply company to see if they rent pumps. Our Breastfeeding Resource Guide on our website can provide more information on such companies.

For more information about the program, call 352-622-1161.

This institution is an equal opportunity provider.
